

Consolidated Proposals to Amend CMM-2024-03 on Transshipments

Abstract

This paper consolidates three proposals (TCC08-WP11, WP15 Rev.1, and WP08) for amendments to CMM 2024-03 On Transshipments.

SWG Ops Proposed Amendments – Explanatory Note

During TCC 07 and COM 08, the requirement for proper and accurate recording of all NPFC fisheries resources that are transshipped, including bycatch or incidental catch, was discussed in relation to a proposed IUU vessel listing. This matter was discussed and advanced during subsequent SWG Operations meetings and members agreed that additional clarification text within the transshipment measure and specifically, the transshipment forms (Advance Notification and Transshipment Declaration) would remove any ambiguity when vessel masters are reporting required information related to transshipment of catch. The proposed amendments reflect the requirement for all bycatch or incidental catch to be reported using the FAO species code for that particular species.

SWG PD Proposed Amendments – Explanatory Note

In accordance with the taskings from TCC 07 and COM 08 to develop a regional observer program for transshipment by COM 09, the Small Working Group on Planning and Development proposes the attached amendments to the existing CMM on Transshipments. These amendments are required to ensure alignment and cohesion between this CMM and the proposed new Transshipment Observer Program CMM.

Canada Proposed Amendments – Explanatory Note

The NPFC has made progress on increasing monitoring and oversight of transshipment activities through the new, strengthened transshipment measure that was adopted at the 2023 Commission meeting. The measure requires NPFC vessels to provide notice of transshipment and other transfer activities through advance notifications and transshipment declarations.

The NPFC Secretariat, with funding from Canada, has developed an online system for users to submit the transshipment reports required under the new measure. Over the past two years, the system has been developed and improved through the efforts of the Secretariat staff who worked closely with the technical contractors to ensure that any technical issues were resolved and that the system was running smoothly.

While recognizing that an increasing number of users are already using the online system, Canada is proposing to make the use of the online transshipment system mandatory by January 1, 2026. This would minimize the need for manual entry of the data by the Secretariat. Up to this point, reports have been sent via email, often as PDFs, and the Secretariat has been manually verifying and entering the information into the system.

Given that the NPFC Secretariat is a very small organization with only 5 full-time staff, this has been a significant strain on their resources and capacity. The use of the online system would free up Secretariat resources to focus on other priorities, such as the analysis and cross-validation of the reported data and identification of trends.

To note:

- This proposal does not preclude users from continuing to use the online system prior to the deadline of January 1, 2026.
- This proposal allows for reports to be submitted to the online system using the application programming interface (API).
- This change will not affect observer reports, which will still be able to be submitted via email, pending the development of a portal in the online system for their submission.

CONSERVATION AND MANAGEMENT MEASURE ON TRANSSHIPMENTS

The North Pacific Fisheries Commission (NPFC),

Deeply concerned about the negative impacts of illegal, unreported, and unregulated (IUU) fishing and its detrimental effect upon fish stocks, marine ecosystems, and the livelihoods of legitimate fishers, and the increasing need for food security on a global basis;

Aware of the need to conduct transshipments of fisheries resources and products of fisheries resources taken in the Convention Area;

Recognizing that while transshipment is an important global commercial fishing practice, if not adequately managed, it may increase IUU fishing of NPFC fisheries resources in the North Pacific Ocean;

Acknowledging that effective conservation and management of NPFC fisheries resources is dependent on accurate, timely, and shared reporting of catches;

Recognizing that effective monitoring, control, and surveillance activities in the high seas require access to information about transshipments and other transfer activities before they occur;

Noting Article 7(2)(a) of the Convention which states that the Commission shall establish procedures for the regulation and monitoring of transshipment of fisheries resources and products of fisheries resources taken in the Convention Area, including notification to the Commission of the location and quantity of any transshipment; and

Desiring to establish the necessary rules and procedures to monitor, report, and verify transshipments to support monitoring, control, and surveillance activities, enhance science and compliance efforts, and fulfill the objective of the Convention;

Adopts the following:

Definitions

1. This measure shall be interpreted, unless a contrary intention appears, in accordance with the Convention.¹
2. The following definitions apply:
 - a) “landing” means all transfers of any quantity of fish onboard from a vessel, other than a transshipment, including transfers of fish to a port facility, transfers of fish from one vessel to another through a port facility, or other means of transportation, and transfers of fish from a vessel to a container, truck, train, or another means of transportation;
 - b) “other transfer activity” means a transfer of fuel, gear, materials, or other supplies, or a transfer of at least one person, from one fishing vessel to another fishing vessel in the Convention Area;
 - c) “port” means any harbour, marine terminal, shore-side facility, or other shore-side place used for landing, loading and unloading, transshipping, packaging, or processing of fisheries resources and products thereof or the refuelling or resupplying of fishing vessels in waters of national jurisdiction;
 - d) “product of fisheries resources” means any article that is produced from or composed of, in whole or in part, any fisheries resource; and
 - e) “trip” means a voyage commencing at the time a fishing vessel leaves a port to engage in a fishing activity and terminates at the time the fishing vessel enters a port.

Scope

3. This measure applies to:
 - a) any transshipment, either at sea or in port, of any NPFC fisheries resources, or product thereof, taken in the Convention Area, except those that have been previously landed;
 - b) any transshipment that occurs in the Convention Area involving a fishing vessel² included in the NPFC Vessel Registry; or,
 - c) any other transfer activity in the Convention Area involving a fishing vessel intending to engage in, or having engaged in, a fishing activity in the Convention Area.

¹ For this measure, an auxiliary tender boat is regarded as part of its parent receiving vessel under the following circumstances: it is used to transport unprocessed fish from the offloading vessel to the parent receiving vessel; it is loaded onboard the parent receiving vessel on navigation; it operates in the line of sight of the parent receiving vessel; and it is dependent on the parent receiving vessel for transportation to the Convention Area.

² For further clarity, obligations to “a fishing vessel” apply to both the offloading vessel and the receiving vessel.

Fishing Vessels Authorized to Engage in Transshipments

Rules for Engaging in Transshipments

4. A fishing vessel shall only engage in a transshipment, or other transfer activity in the Convention Area, if both the offloading and receiving vessel are duly authorized by its Flag State and included in the NPFC Vessel Registry.
5. A fishing vessel is prohibited from operating as both an offloading vessel and a receiving vessel in the same trip.

Authorization from Relevant Coastal or Port State

6. If a fishing vessel intends to engage in a transshipment in an area under national jurisdiction, including a port, the fishing vessel shall receive an authorization from the relevant coastal or port State before engaging in the transshipment.

General Reporting Requirements

Reporting

7. All reporting to the Secretariat related to a transshipment, or other transfer activity, shall be provided electronically (e.g. email, facsimile, etc.). This includes advance notifications, transshipment declarations, and observer transshipment reports. [As of January 1, 2026, all advance notifications, including modifications and cancellations, and all transshipment declarations shall be submitted via the NPFC's online Transshipment Reporting system.](#)
8. All reporting shall comply with the procedures to be adopted by the Commission.

Reporting of Bycatch and Unregulated Species

9. All reporting related to a transshipment shall include all marine species [taken in the Convention Area](#), including bycatch and unregulated species, ~~taken in the Convention Area~~ [recorded by species using the FAO code.](#)

Record of Transshipment

10. A fishing vessel shall maintain an electronic or physical record on board the fishing vessel of each transshipment it has engaged in during the current trip. The record shall include each transshipment declaration and daily activity records, such as those in a navigation logbook.
11. A Commission Member, or Cooperating non-Contracting Party, shall maintain an electronic or physical record of each transshipment engaged in by each of its fishing vessels for the current year. The record shall include each transshipment declaration.

Advance Notifications

Advance Notifications for Transshipments

12. A fishing vessel, or a Commission Member or Cooperating non-Contracting Party on behalf of the vessel, shall provide an advance notification to the authorities listed in paragraph 13 as soon as possible, and at least 24 hours in advance of the intended transshipment. The advance notification form is included in Annex I.
13. A fishing vessel, or Commission Member or Cooperating non-Contracting Party, shall provide the advance notification to:
 - a) the Commission Member, or Cooperating non-Contracting Party, of its flag, if the advance notification is provided by the fishing vessel; and
 - b) the Secretariat.

Advance Notification of Other Transfer Activities

14. A receiving vessel, or a Commission Member or Cooperating non-Contracting Party on behalf of the receiving vessel, shall provide an advance notification to the authorities listed in paragraph 13 as soon as possible, and at least 24 hours in advance of the intended other transfer activity. The advance notification form is included in Annex I.

Modifications to the Advance Notification

15. If the transshipment does not start after 24 hours of the estimated start time, or within 20 nautical miles of the estimated start location, as contained in the advance notification, the fishing vessels involved in the transshipment, or Commission Members or Cooperating non-Contracting Parties on their behalf, shall modify the submitted advance notification.
16. If the other transfer activity does not start after 24 hours of the estimated start time, or within 20 nautical miles of the estimated start location, as contained in the advance notification, the receiving vessel, or Commission Member or Cooperating non-Contracting Party of the receiving vessel, shall modify the submitted advance notification.
17. For 2024 only, modification to the advance notification only needs to be submitted if the transshipment or Other Transfer Activity does not occur within 72 hours of the estimated start time or within 50 nautical miles of the estimated start location in the original advance notification.

Provision of Authorization from Relevant Flag and Coastal or Port State

18. If a fishing vessel intends to engage in a transshipment in an area under national jurisdiction, including in a port, it shall not start the operation unless an authorization from the relevant flag and

coastal or port State has been provided following the receipt of the transshipment advance notification.

Cancellation of Transshipment

19. If a transshipment is cancelled before it is undertaken, a fishing vessel intending to engage in the transshipment, or the Commission Member or Cooperating non-Contracting Party whose fishing vessel intended to engage in the transshipment, shall notify the Secretariat of the cancellation as soon as possible.

Other At-Sea Requirements

Commission Member and Cooperating non-Contracting Party Responsibility

20. After receiving an advance notification for a transshipment, a Commission Member, or Cooperating non-Contracting Party, shall verify that their fishing vessel complies with the Convention and all conservation and management measures.
21. If a Commission Member, or Cooperating non-Contracting Party, receives suitably documented information that its flagged fishing vessel is, or appears to be, non-compliant with the Convention, or a conservation and management measure, the Commission Member, or Cooperating non-Contracting Party, shall conduct an investigation.
22. The investigating Commission Member, or Cooperating non-Contracting Party, shall provide a report on the progress of the investigation, including an attestation of the fishing vessel's status under paragraph 20, no later than 60 days after receiving the information, to:
 - a) the Secretariat; and
 - b) the Commission Member, or Cooperating non-Contracting Party that provided the information.

Following the investigation process, information shall be provided about any appropriate enforcement action taken in line with its national laws.

23. If a fishing vessel receives catch from more than one offloading vessel, the fishing vessel shall ensure that the catch from each offloading vessel is stored separately and readily identifiable. The receiving vessel shall have a stowage plan available on board at all times.

Mobile Transmitting Unit Failure

24. In the event of mobile transmitting unit failure, the transshipment shall be suspended, and only resume once the fishing vessel complies with the relevant procedures in *CMM on the Vessel Monitoring Systems (VMS)*.

Transshipment Declaration

25. A fishing vessel having engaged in, or a Commission Member or Cooperating non-Contracting Party whose fishing vessel has engaged in, a transshipment shall provide a transshipment declaration to the authorities listed in paragraph 26 as soon as possible, and no later than 10 days after the transshipment. The transshipment declaration form is included in Annex II.
26. A fishing vessel, or a Commission Member or a Cooperating non-Contracting Party, shall provide the transshipment declaration to:
- a) the Commission Member, or Cooperating non-Contracting Party, of its flag; and
 - b) the Secretariat.

Independent Monitoring and Reporting

Responsibility for Observers

27. The Commission shall establish a regional observer and/or electronic monitoring program no later than its 9th Commission meeting. Until the ~~Commission establishes an observer and/or electronic monitoring program~~Transshipment Observer Program enters into force, a Commission Member, or Cooperating non-Contracting Party, is responsible for the deployment of independent, impartial, and qualified observers to fulfill the requirements of this measure. Once this program enters into force, paragraphs 28, 29, 33-35 of this measure shall be superseded by the provisions of the new program.
28. An observer is deemed to be independent, impartial, and qualified if the observer:
- a) is deployed from a Commission Member's, or Cooperating non-Contracting Party's, national observer program, and familiar with NPFC fisheries resources, fishing activities, and CMMs;
 - b) is neither part of the crew, nor has any employment or family relationship to the ownership or operator of the fishing vessel; and
 - c) does not have any shared business interests with the owner or operator of the fishing vessel.
29. An observer shall be provisioned, accommodated, including access to independent communications, and provided safe working conditions by the receiving vessel in accordance with the Commission Member's, or Cooperating non-Contracting Party's, domestic laws and regulations.

Deployment of Observers

30. A Commission Member, or Cooperating non-Contracting Party, shall take necessary measures to ensure that its receiving vessels engaging in a transshipment have an observer on board.

~~30-31.~~ A Commission Member or CNCP shall take necessary measures to ensure that a [fishing] [offloading] vessel does not engage in a transshipment unless an observer is on board the receiving vessel in the transshipment and the observer is able and available to monitor and report on the transshipment

~~31-32.~~ A Commission Member or CNCP shall take necessary measures to ensure that Aa fishing vessel may only engage in one transshipment at a time for each observer that is available to monitor and report on the transshipment. If there are two vessels seeking to transship concurrently, but only one observer is present, one vessel must stand off and wait until the first vessel has finished. Only one offloading vessel may be secured to the receiving vessel unless a second observer is performing observer duties for a second transshipment.

Access to Fishing Vessels

~~32-33.~~ An observer shall have:

- a) full, unobstructed, and safe access to each fishing vessel involved in the transshipment, including, *inter alia*, access to crew, gear, equipment, records, electronic means of communication, and fish holds; and
- b) adequate and appropriate space to undertake their responsibilities pursuant to this measure.

Monitoring and Reporting by Observers

~~33-34.~~ An observer shall monitor and report on, to the greatest extent possible, that the transshipment is conducted in a manner consistent with the advance notification and other information available to the observer, and in particular, verify the consistency of transshipped quantities of fisheries resources, or products of fisheries resources.

~~34-35.~~ An observer shall record an observer report immediately after each transshipment and keep the report onboard, and provide an observer transshipment report, as specified in Annex III, as soon as possible, but no later than 10 days from the disembarkation of the observer, to:

- a) the Commission Member, or Cooperating non-Contracting Party, of the flags of the receiving vessel and the offloading vessel; and
- b) the Secretariat.

Procedure for Non-Compliance

~~36. In the case where~~If an observer observes an activity or condition that is not consistent with this conservation and management measures, the observer shall notify-report the finding, as well as and provide documented evidence, to the extent possible, without delay [upon disembarkation] to the Secretariat. Once the Transshipment Observer Program enters into force, the observer will notify

the Observer service provider as well as the Secretariat. The Secretariat will then transmit the report to ~~and~~ the authorities of the Commission Member or Cooperating non-Contracting Party of the flags of the receiving and offloading vessels.

37. Upon receipt of a notification of potential non-compliance, or instances of obstruction, intimidation, interference with, or otherwise prevention of the observer from performing their duties, concerning a vessel entitled to fly its flag, the Commission Member or Cooperating non-Contracting Party shall:

a) [treat the report with utmost sensitivity and discretion, in accordance with applicable confidentiality requirements;

b) make best efforts to respond to this notification through the Secretariat without delay and;

a)c) undertake investigation on any condition or activity that is not consistent with conservation and management measures as per Article 17 of the Convention. The Commission Member or CNCP shall report any findings and/or relevant actions taken, in their Annual Report, and in the CMS Implementation Questionnaire (if applicable).

~~35. The Commission Member or Cooperating non-Contracting Party of the flag of the vessel whose violation has been observed and notified shall make the best effort to respond to this notification through the Secretariat without delay and undertake investigation on the observed violation. The Commission Member or Cooperating non-Contracting Party shall report any finding and/or relevant actions taken in their Annual Report.~~

~~36. The obligations related to observer coverage included in this measure will come into effect as of September 1, 2023.~~

Data and Information Sharing

Establishment of a Transshipment Record

37.38. The Commission hereby establishes a record of transshipments, and other transfer activities, hereinafter named the NPFC Transshipment Record, to make all data and information, including all reporting related to, transshipments, and other transfer activities, available to Commission Members and Cooperating non-Contracting Parties, in accordance with the NPFC Data Sharing and Data Security Protocol.

38.39. The data and information on the NPFC Transshipment Record may be used for either scientific or compliance purposes by:

- a) a Commission Member, or Cooperating non-Contracting Party; or
- b) the Commission.

39.40. The Secretariat shall maintain the NPFC Transshipment Record in accordance with Annex IV.

Public Availability of Data and Information

~~40.41.~~ The Secretariat shall make aggregated anonymized data and information related to transshipments publicly available on the NPFC website, in accordance with the NPFC Data Sharing and Data Security Protocol.

Sharing Data and Information with Authorized In-Port Inspectors and Port Authorities

~~41.42.~~ An authorized in-port inspector, or port State authority, may request from the Secretariat, and the Secretariat may provide, data or information related to a fishing vessel's transshipments for in-port inspection purposes, in accordance with the NPFC Data Sharing and Data Security Protocol.

Sharing Data and Information with Other RFMOs

~~42.43.~~ The NPFC may share data and information related to transshipments with another regional fisheries management organization (RFMO) if the NPFC has entered into a Memorandum of Understanding with that RFMO and if the RFMO agrees to comply with the NPFC Data Sharing and Data Security Protocol.

Compliance Monitoring

~~43.44.~~ Compliance monitoring of all transshipments shall be undertaken in accordance with the CMM *for the Compliance Monitoring Scheme*.

~~44.45.~~ The assessment of compliance shall encompass all transshipments within the scope of this measure.

Force Majeure

~~45.46.~~ Nothing in this measure prevents a fishing vessel from engaging in a transshipment, or other transfer activity, with another fishing vessel in cases of *force majeure* that threaten the safety of the crew or result in a significant financial loss through fish or fish product spoilage.

~~46.47.~~ In the case of *force majeure*, the fishing vessel, or Commission Member or Cooperating non-Contracting Party, shall:

- a) notify the Secretariat prior to the completion of the transshipment, or other transfer activity, as well as the circumstances giving rise to the *force majeure*; and
- b) provide a transshipment declaration on the transshipment as soon as possible, but within 10 days of the transshipment.

~~47.48.~~ The Secretariat shall inform the Commission of each incident of *force majeure* upon receiving notification from the fishing vessel, Commission Member, or Cooperating non-Contracting Party.

Annual Reporting and Review

Annual Reporting

~~48.~~49. Each Commission Member, and Cooperating non-Contracting Party, shall provide an annual summary of the data and information collected from all authorized fishing vessels having undertaken a transshipment, including each year's transshipment declarations, to the Commission at the Technical and Compliance Committee meeting. The summary shall be included in the Annual Report, as per Article 16(3) of the Convention. The template for this summary is included in Annex V.

~~49.~~50. A Commission Member, or Cooperating non-Contracting Party, shall take all reasonable steps to verify the information received from fishing vessels having engaged in a transshipment.

~~50.~~51. Each year, the Secretariat shall produce and present a summary report on the implementation of this measure to the annual meeting of the Technical and Compliance Committee for review. This report shall include summarized information collected from observers, offloading vessels and receiving vessels, and responses from Commission Members and Cooperating non-Contracting Parties on their observer transshipment reports.

~~51.~~52. Commission Members and Cooperating non-Contracting Parties shall investigate instances of potential non-compliance with this measure, and report the results of those investigations to the Commission.

Review of Measure

~~52.~~53. This measure will be reviewed regularly at the Annual Session of the Commission. This review will take into account, *inter alia*:

- a) the latest advice from the Technical and Compliance Committee regarding the effectiveness of this measure in:
 - i) providing the Commission with information about transshipments; and
 - ii) supporting effective monitoring, control, and surveillance activities in line with the obligations of the Convention and conservation and management measures;
- b) required levels of observer coverage and the potential use of electronic monitoring; and,
- c) the scope and provisions of this measure.

ADVANCE NOTIFICATION

INSTRUCTIONS

In completing the advance notification, the fishing vessel shall ensure that:

1. the information is as **accurate** as possible, and legible; and
2. the information is provided in **clear, legible print** in accordance with the clarifications below (either by hand or electronically).

CLARIFICATIONS

To assist in the accurate and clear completion of the advance notification:

- use the DD-MM-YYYY format to specify the date (e.g. 01-11-2022);
- use the HH:MM format, and the 24-hour clock (UTC, or specify time zone) to specify the time (e.g. 23:15);
- “NW” is an abbreviation for “national waters”;
- “OTA” is an abbreviation for “other transfer activities”;
- use the Degrees (°) Minutes (′) format to specify the latitude and longitude (e.g. 40° 26′ N, 79° 58′ W);
- for “FAO CODE”, utilize the FAO 3-alpha codes found at www.npfc.int/priority-species, or Fisheries and Aquaculture - All Information Collections - ASFIS List of Species for Fishery Statistics Purposes (fao.org);
 - the Codes for major NPFC species are; SAP (Pacific saury), MAS (chub mackerel), MAA (blue mackerel), JAP (Japanese sardine), OFJ (neon flying squid) and SQJ (Japanese flying squid).
 - [All species including bycatch must be recorded by species, using their specific FAO code.](#)
- for “GEOGRAPHIC LOCATION”, state where the fisheries resource (or fisheries resource processed into a product) was taken; and
- for “STATE OF FISH”, state whether the fisheries resource, or product of fisheries resource, is: (1) fresh (FRS), or (2) frozen (FRZ).

TRANSSHIPMENT DECLARATION (2/2)

PART I – FISHERIES RESOURCES OR PRODUCTS TRANSSHIPPED, INCLUDING BYCATCH, RECORDED BY SPECIES CODE

Weight (kg) or unit used (e.g. box, basket) and the estimated total weight in kg:

FAO Code	Geographic Location	State of Fish	Type of product (whole, G&G, etc.)	Unit	Kg per unit	Number of Units	TOTAL (kg)

PART II – FISHERIES RESOURCES OR PRODUCTS STILL ON OFFLOADING VESSEL, INCLUDING BYCATCH, RECORDED BY SPECIES CODE (for offloading vessel)

FAO Code	Geographic Location	State of Fish	Type of product (whole, G&G, etc.)	Unit	Kg per unit	Number of Units	TOTAL (kg)

PART III – FISHERIES RESOURCES OR PRODUCTS CURRENTLY ON RECEIVING VESSEL, INCLUDING BYCATCH, RECORDED BY SPECIES CODE (for receiving vessel)

FAO Code	Geographic Location	State of Fish	Type of product (whole, G&G, etc.)	Unit	Kg per unit	Number of Units	TOTAL (kg)

OBSERVER TRANSSHIPMENT REPORT

INSTRUCTIONS

In completing the observer transshipment report, the fishing vessel shall ensure that:

1. the information is as **accurate** as possible, and legible; and
2. the information is provided in **clear, legible print** in accordance with the clarifications below (either by hand or electronically).

The observer must provide (e.g. as an attachment) the completed transshipment declaration with the completed observer transshipment report. It is the responsibility of the observer to provide sufficient reasoning in order to effectively explain any non-compliance.

CLARIFICATIONS

To assist in the accurate completion of the observer transshipment report:

- use the DD-MM-YYYY format to specify the date (e.g. 01-11-2022);
- use the HH:MM format, and the 24-hour clock (UTC, or specify time zone) to specify the time (e.g. 23:15);
- “NW” is an abbreviation for “national waters”;
- use the Degrees (°) Minutes (′) format to specify the latitude and longitude (e.g. 40° 26′ N, 79° 58′ W);
- for “FAO CODE”, utilize the FAO 3-alpha codes found at www.npfc.int/priority-species, or Fisheries and Aquaculture - All Information Collections - ASFIS List of Species for Fishery Statistics Purposes (fao.org);
- for “GEOGRAPHIC LOCATION”, state where the fisheries resource (or fisheries resource processed into a product) was taken;
- for “STATE OF FISH”, state whether the fisheries resource, or product of fisheries resource, is: (1) fresh (FRS), or (2) frozen (FRZ); and
- “Interruptions” refers to any stoppage in observation of the transshipment by the observer.

OBSERVER TRANSSHIPMENT REPORT (1/1)		
Please ensure that the completed transshipment declaration is attached/provided.		
PART I – OBSERVED TRANSSHIPMENT INFORMATION		
1	Observed (Y/N)	
2	Total Hours Observed	
3	Interruption(s) in Observation (Y/N)	
4	Number of Interruptions	
5	Total Time Interrupted	
PART II - COMMENTARY		
<p>In this section, the observer shall note any observed non-compliance with CMM 2022-03 on Transshipments, including the verification of the consistency of the transshipped quantities (by species) of fisheries resources, or products of fisheries resources.</p>		
PART III - VERIFICATION

NPFC TRANSSHIPMENT RECORD

In order to facilitate the availability of reporting data and information on transshipments, the following shall be implemented:

Objective

1. The Secretariat shall ensure that all data and information related to transshipments and other transfer activities, including all reporting, is immediately available through the NPFC Transshipment Record to all Commission Members, and Cooperating non-Contracting Parties, upon reception.

General Specifications

2. The NPFC Transshipment Record shall be maintained on, and be accessible through, the secure NPFC website.
3. The NPFC Transshipment Record shall record each transshipment, and other transfer activity, conducted pursuant to this measure.
4. Each transshipment, and other transfer activity, shall be recorded through a profile for the transshipment, or other transfer activity. The profile shall contain:
 - a) the advance notification for each fishing vessel involved;
 - b) the authorization from the relevant coastal or port State authority for each fishing vessel involved, if applicable;
 - c) the transshipment declaration for each fishing vessel involved; and
 - d) if a transshipment, the observer transshipment report.

Specifications for the Record in the Event of Force Majeure

5. If a transshipment, or other transfer activity, is conducted because of *force majeure*, a profile shall be generated and it shall contain:
 - a) the notification of the transshipment, or other transfer activity, and the circumstances giving rise to the *force majeure*; and
 - b) the transshipment declaration.

Direct Entry Scheme

6. The NPFC Transshipment Record shall have a secure direct entry submission webpage to receive:
 - a) advance notifications;
 - b) authorizations from relevant coastal or port States;
 - c) transshipment declarations; and
 - d) observer transshipment reports.
7. The NPFC Transshipment Record shall not accept for submission any advance notification, transshipment declaration, or observer transshipment report that does not satisfy the required data and information.

Integration with the NPFC Vessel Registry

8. Each profile in the NPFC Transshipment Record shall have a link to the NPFC Vessel Registry for each fishing vessel involved in the transshipment, or other transfer activity.
9. Each profile for a fishing vessel in the NPFC Vessel Registry shall have a link to the NPFC Transshipment Record profile of each transshipment, or other transfer activity, that the fishing vessel was involved in.

INFORMATION TO BE INCLUDED IN THE ANNUAL SUMMARY OF TRANSSHIPMENT

Each Commission Member and Cooperating non-Contracting Party shall include in Part 1 of its Annual Report to the Commission:

- 1.** The total quantities, by weight, of fish stocks covered by this measure that were transshipped by fishing vessels the Commission Member or Cooperating non-Contracting Party is responsible for reporting against, with those quantities broken down by:
 - a)** offloaded and received;
 - b)** transhipped inside the Convention Area, within an EEZ, in port and high seas outside the Convention Area;
 - c)** caught inside the Convention Area and caught outside the Convention Area;
 - d)** species; and,
 - e)** product form.
- 2.** The number of transshipments covered by this measure by fishing vessels that it is responsible for reporting against, broken down by:
 - a)** offloaded and received;
 - b)** transhipped inside the Convention Area, within an EEZ, in port and outside the Convention Area; and
 - c)** caught inside the Convention Area and caught outside the Convention Area.
